

After his stink pile of tasty tidbits is washed away by a furious storm, the cantankerous Cockroach is forced to travel from his home in Meadowfield to the distant and foreboding Smoking Hills; where countless numbers of tidbits are rumored to be there for the taking. The only problem - it's also where the dreaded Loomers live.

With a lively and incredible cast of pests, including the scheming Silverfish, the bashful Stinkbug, the brilliant Book Louse, and Scarab the Dung, just to name a few, Bradford P. Ward's creative adventure is full of humor, intrigue, and genuine scientific insight into the behavior of insects as told through a fictional tale. The reader is not only thoroughly entertained by the interaction and antics of the "bug-fellows", but will come away with a whole new way of seeing the world of insects
